These materials adapted by Amelia McNamara from the RStudio <u>CC BY-SA</u> materials Introduction to R (2014) and <u>Master the Tidyverse</u> (2017).

Introduction to R & RStudio:

deck 11: Going Forward

Amelia McNamara

Visiting Assistant Professor of Statistical and Data Sciences Smith College

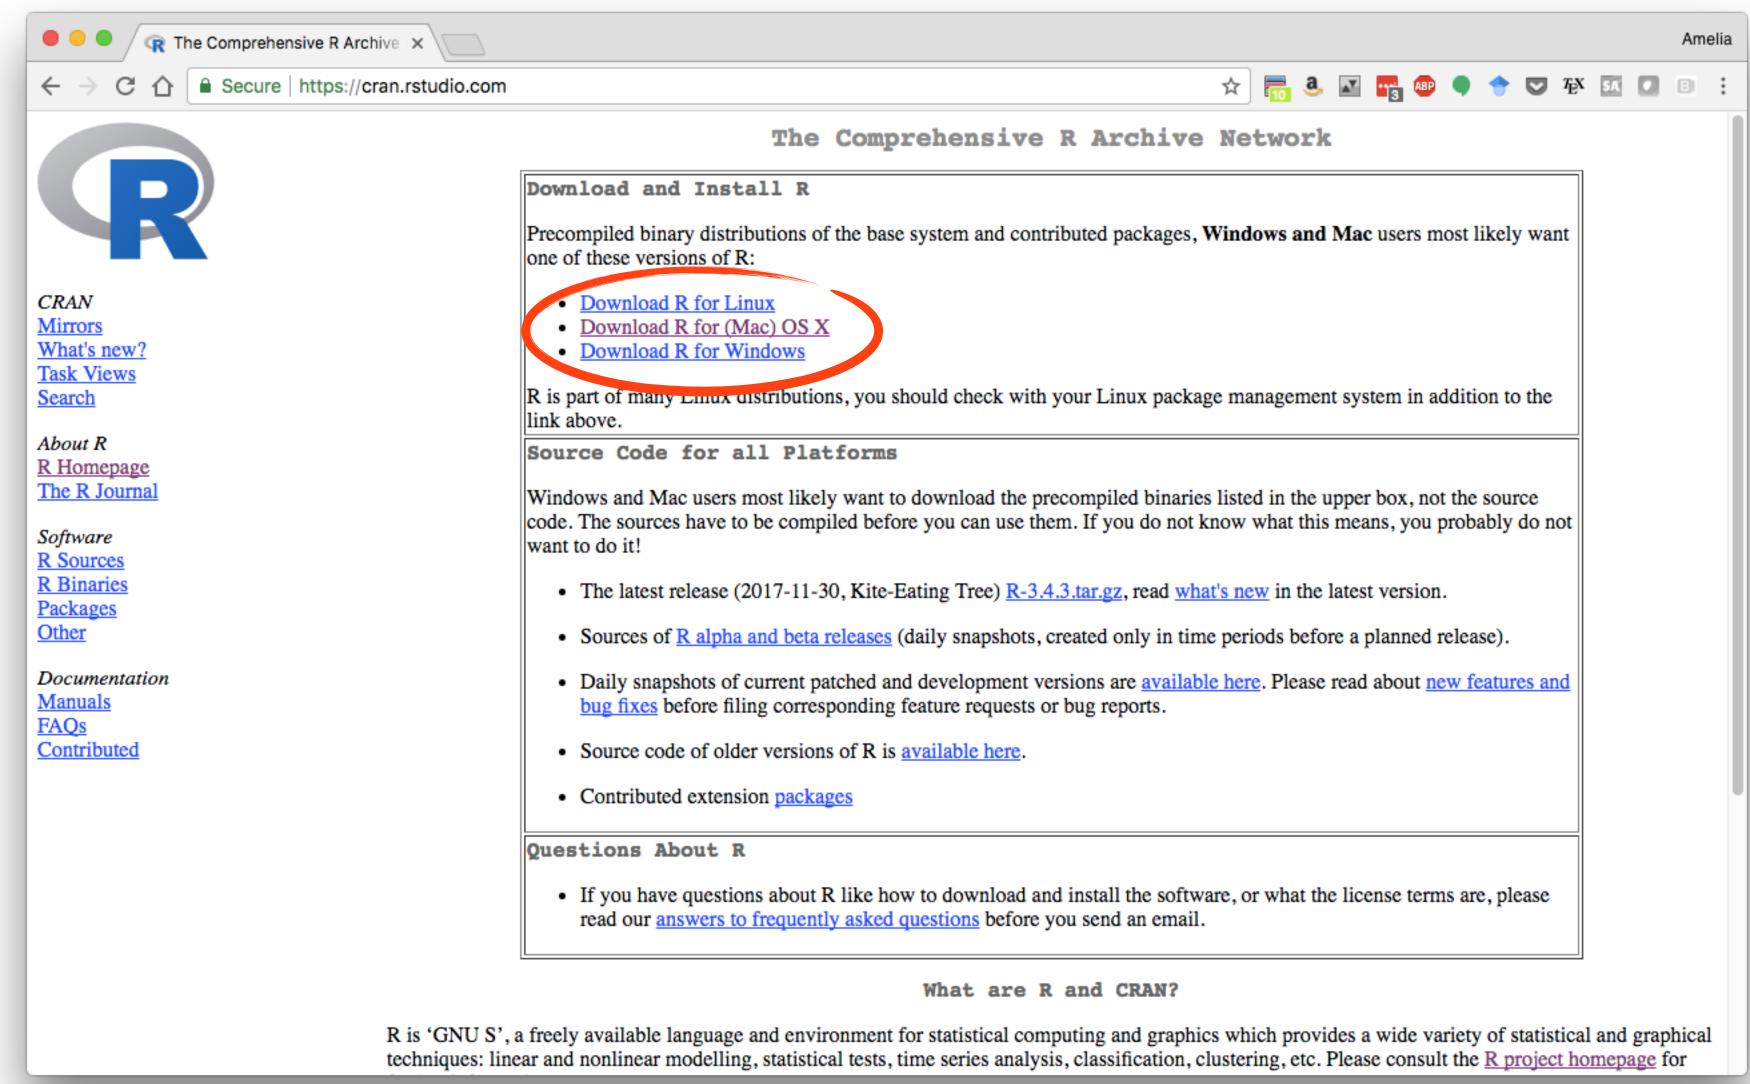

January 2018

Installing locally

First, you will need to install R (the programming language).

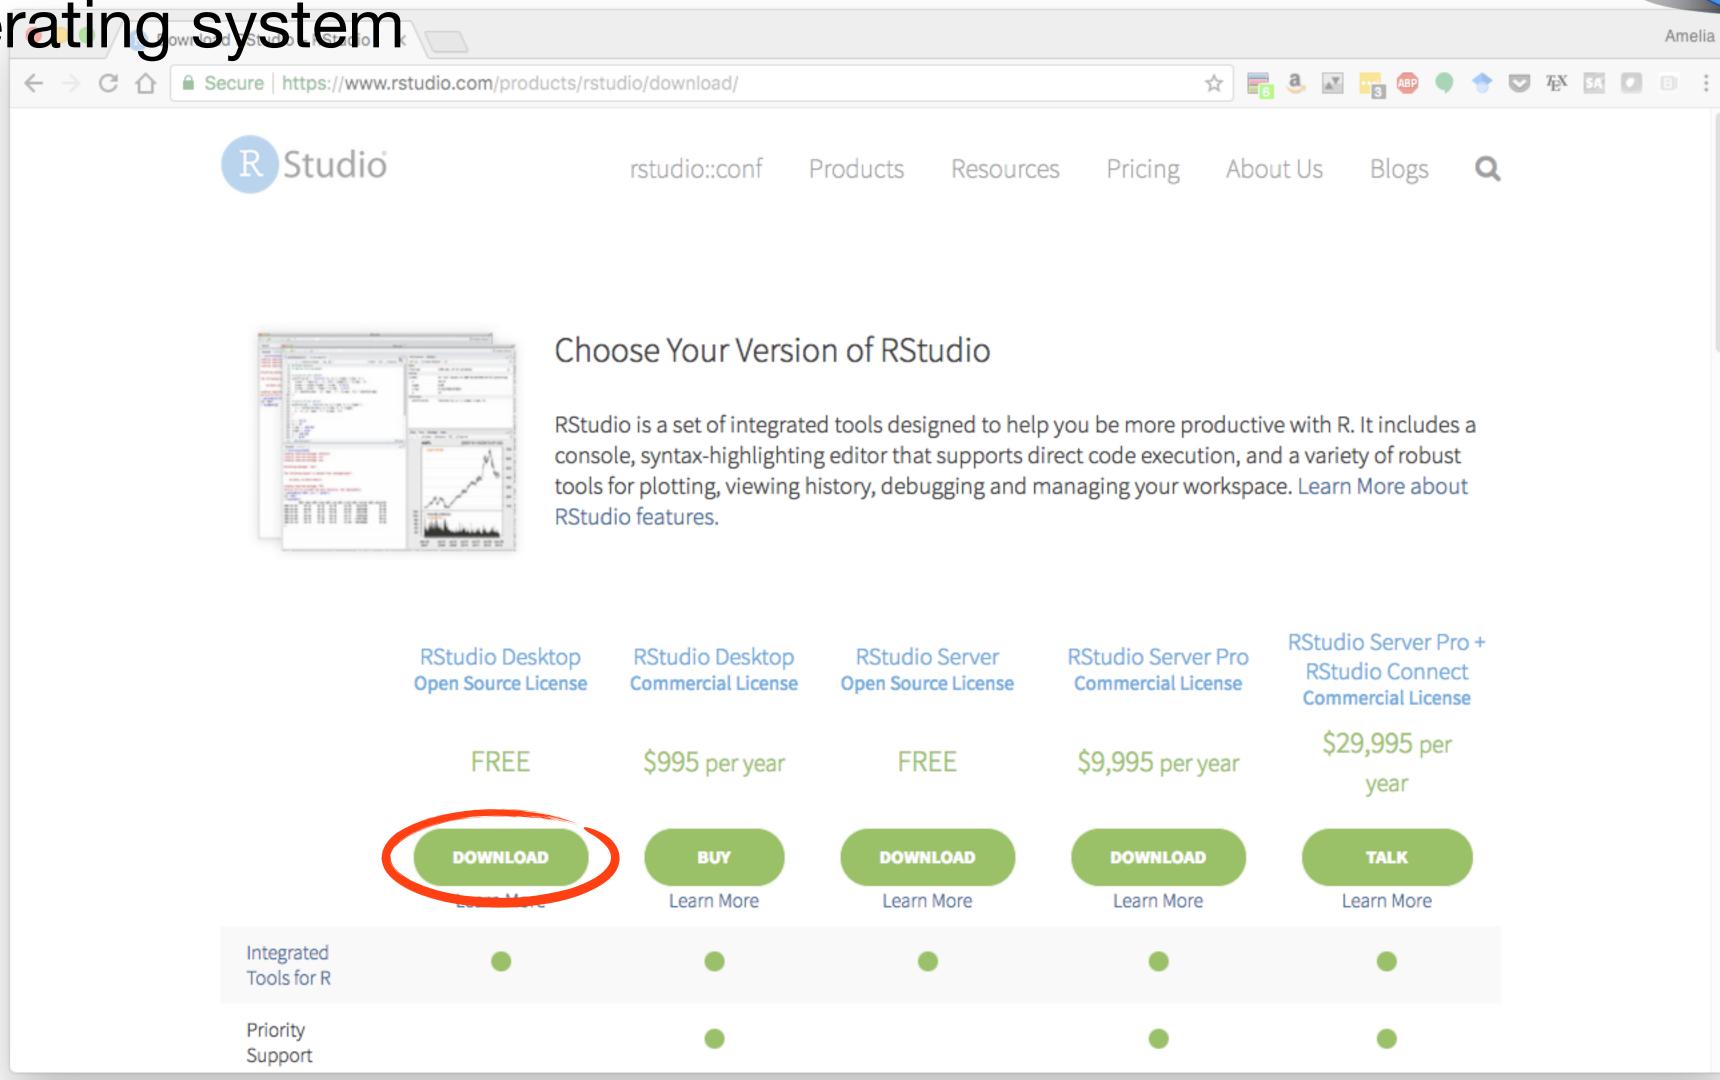

- 1. Go to https://cran.rstudio.com/
- 2. Select your operating system

Then, install RStudio (the application).

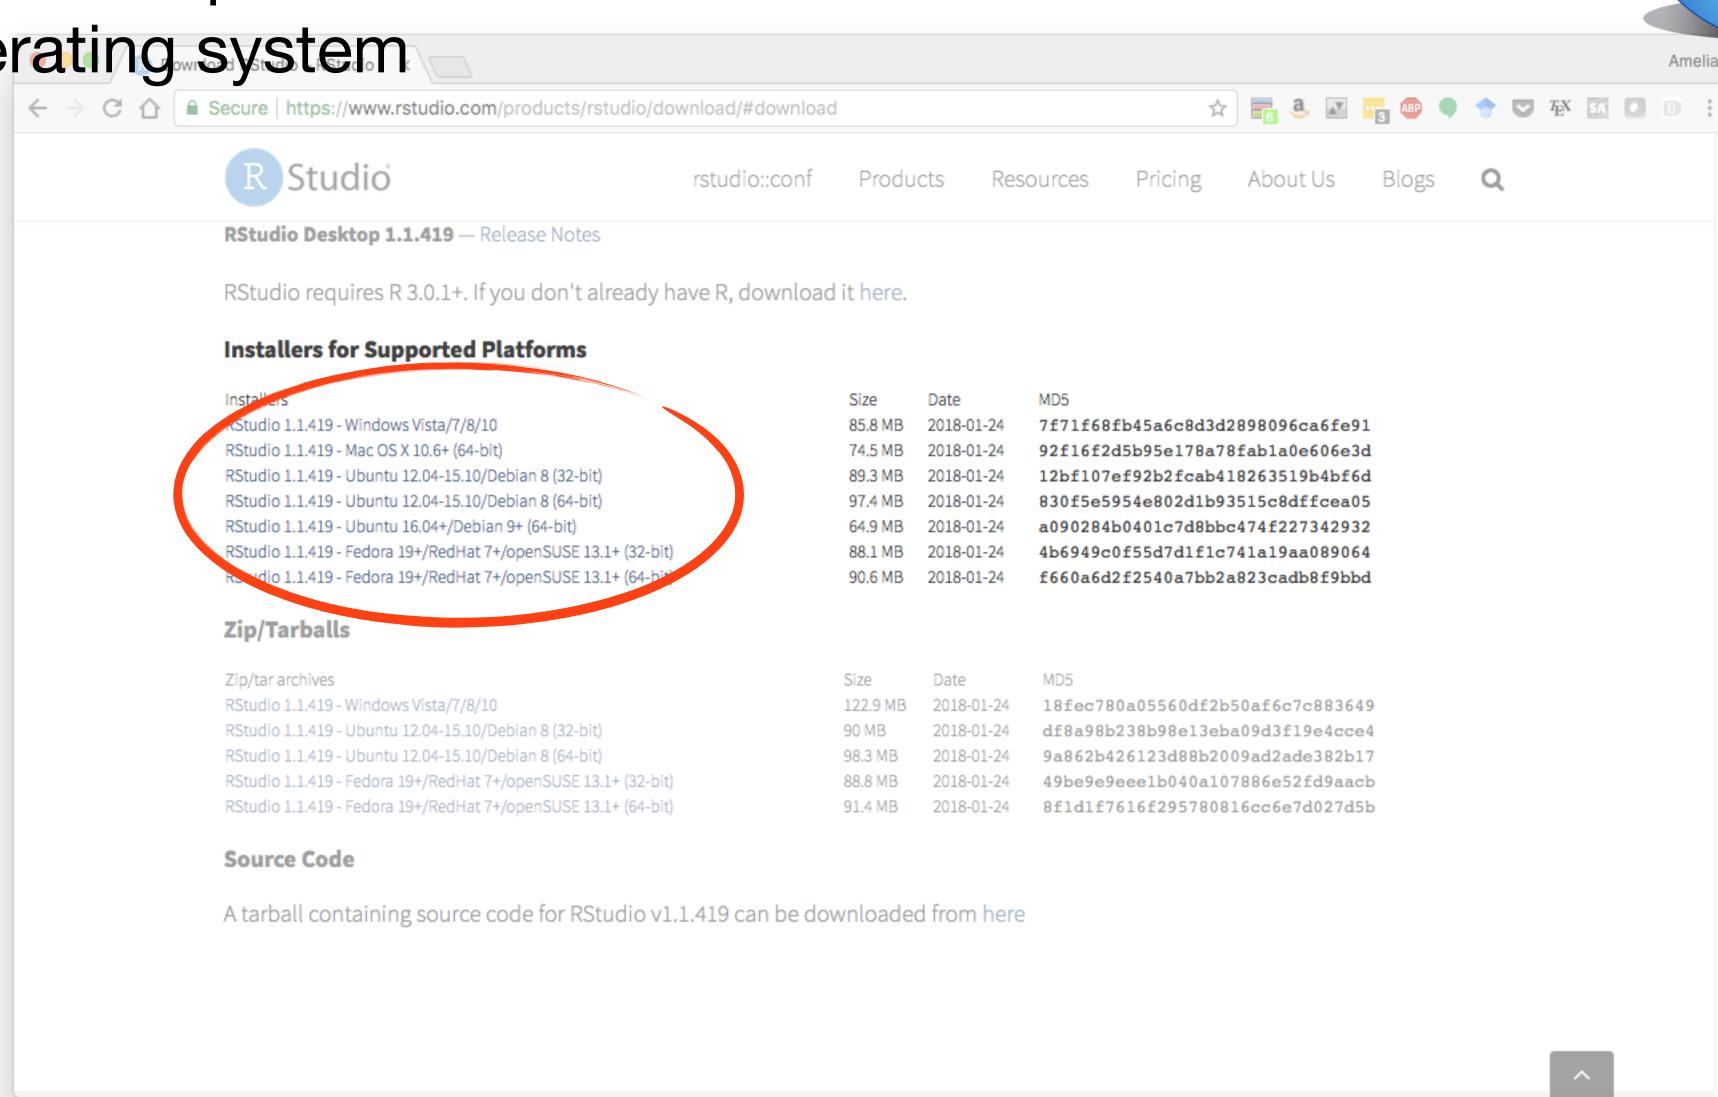

- 1. Go to https://www.rstudio.com/products/rstudio/download/
- 2. Select RStudio desktop
- 3. Select your operating system

Then, install RStudio (the application).

- 1. Go to https://www.rstudio.com/products/rstudio/download/
- 2. Select RStudio desktop

3. Select your operating system

Installing packages

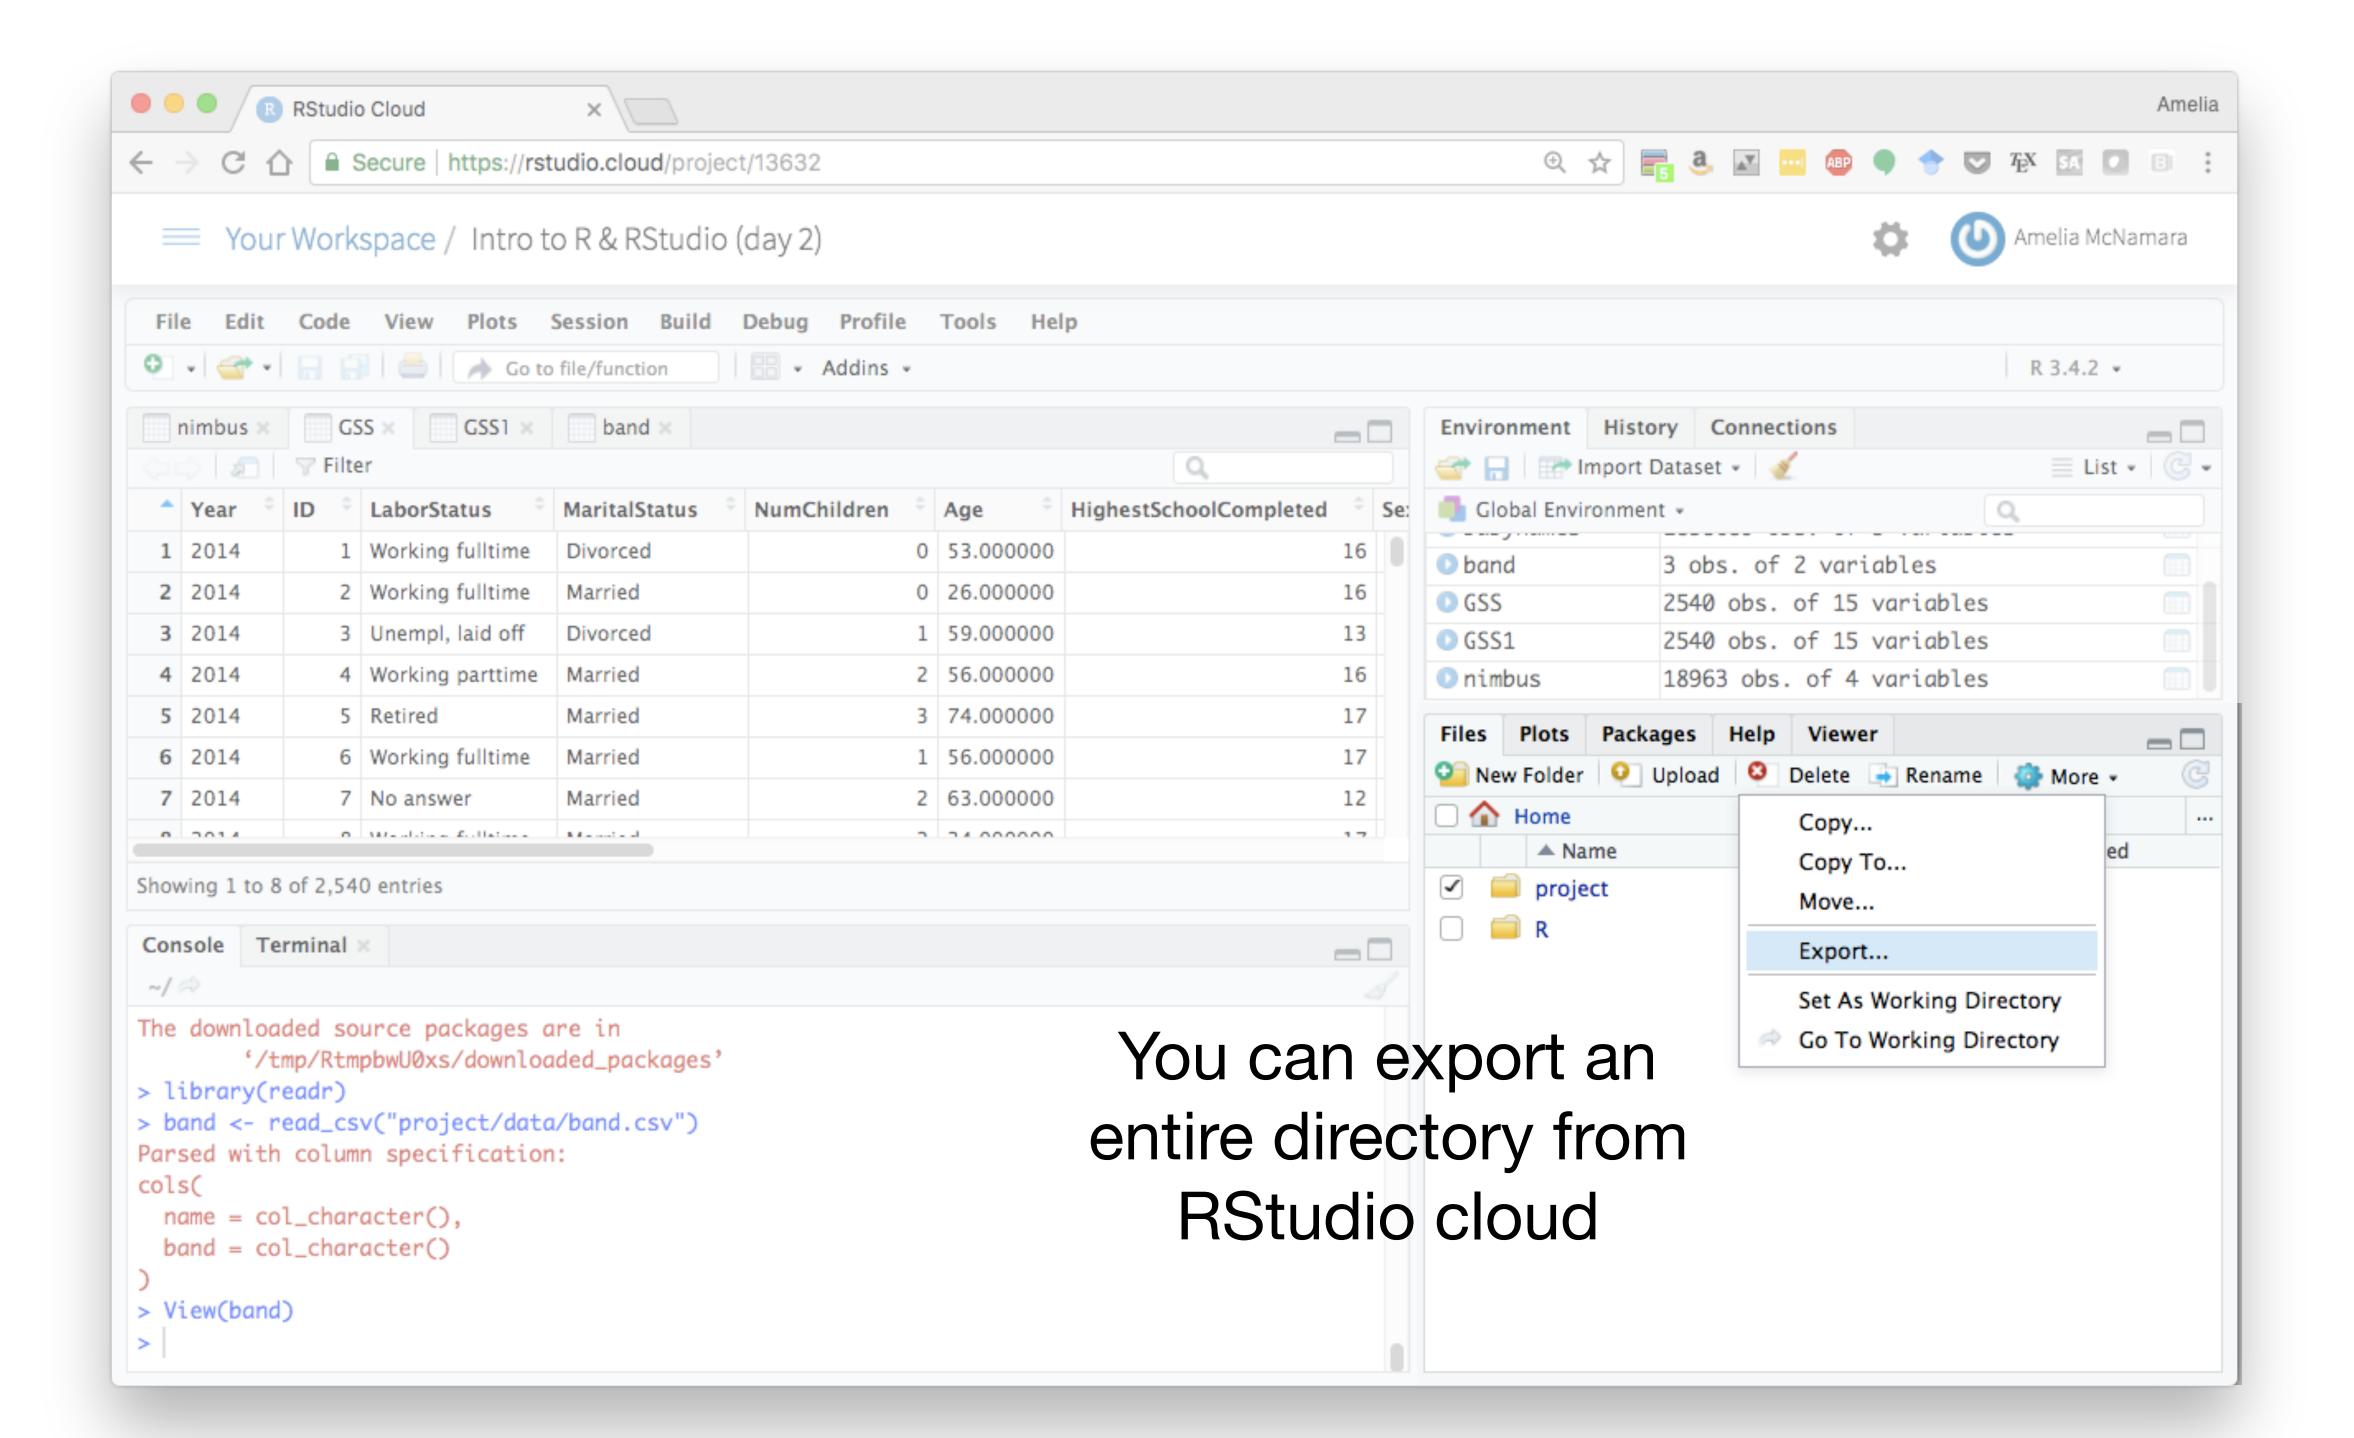

Shortcut to install

- ggplot2, for data visualisation.
- dplyr, for data manipulation.
- tidyr, for data tidying.
- readr, for data import.
- purrr, for functional programming.
- tibble, for tibbles, a modern re-imagining of data frames.

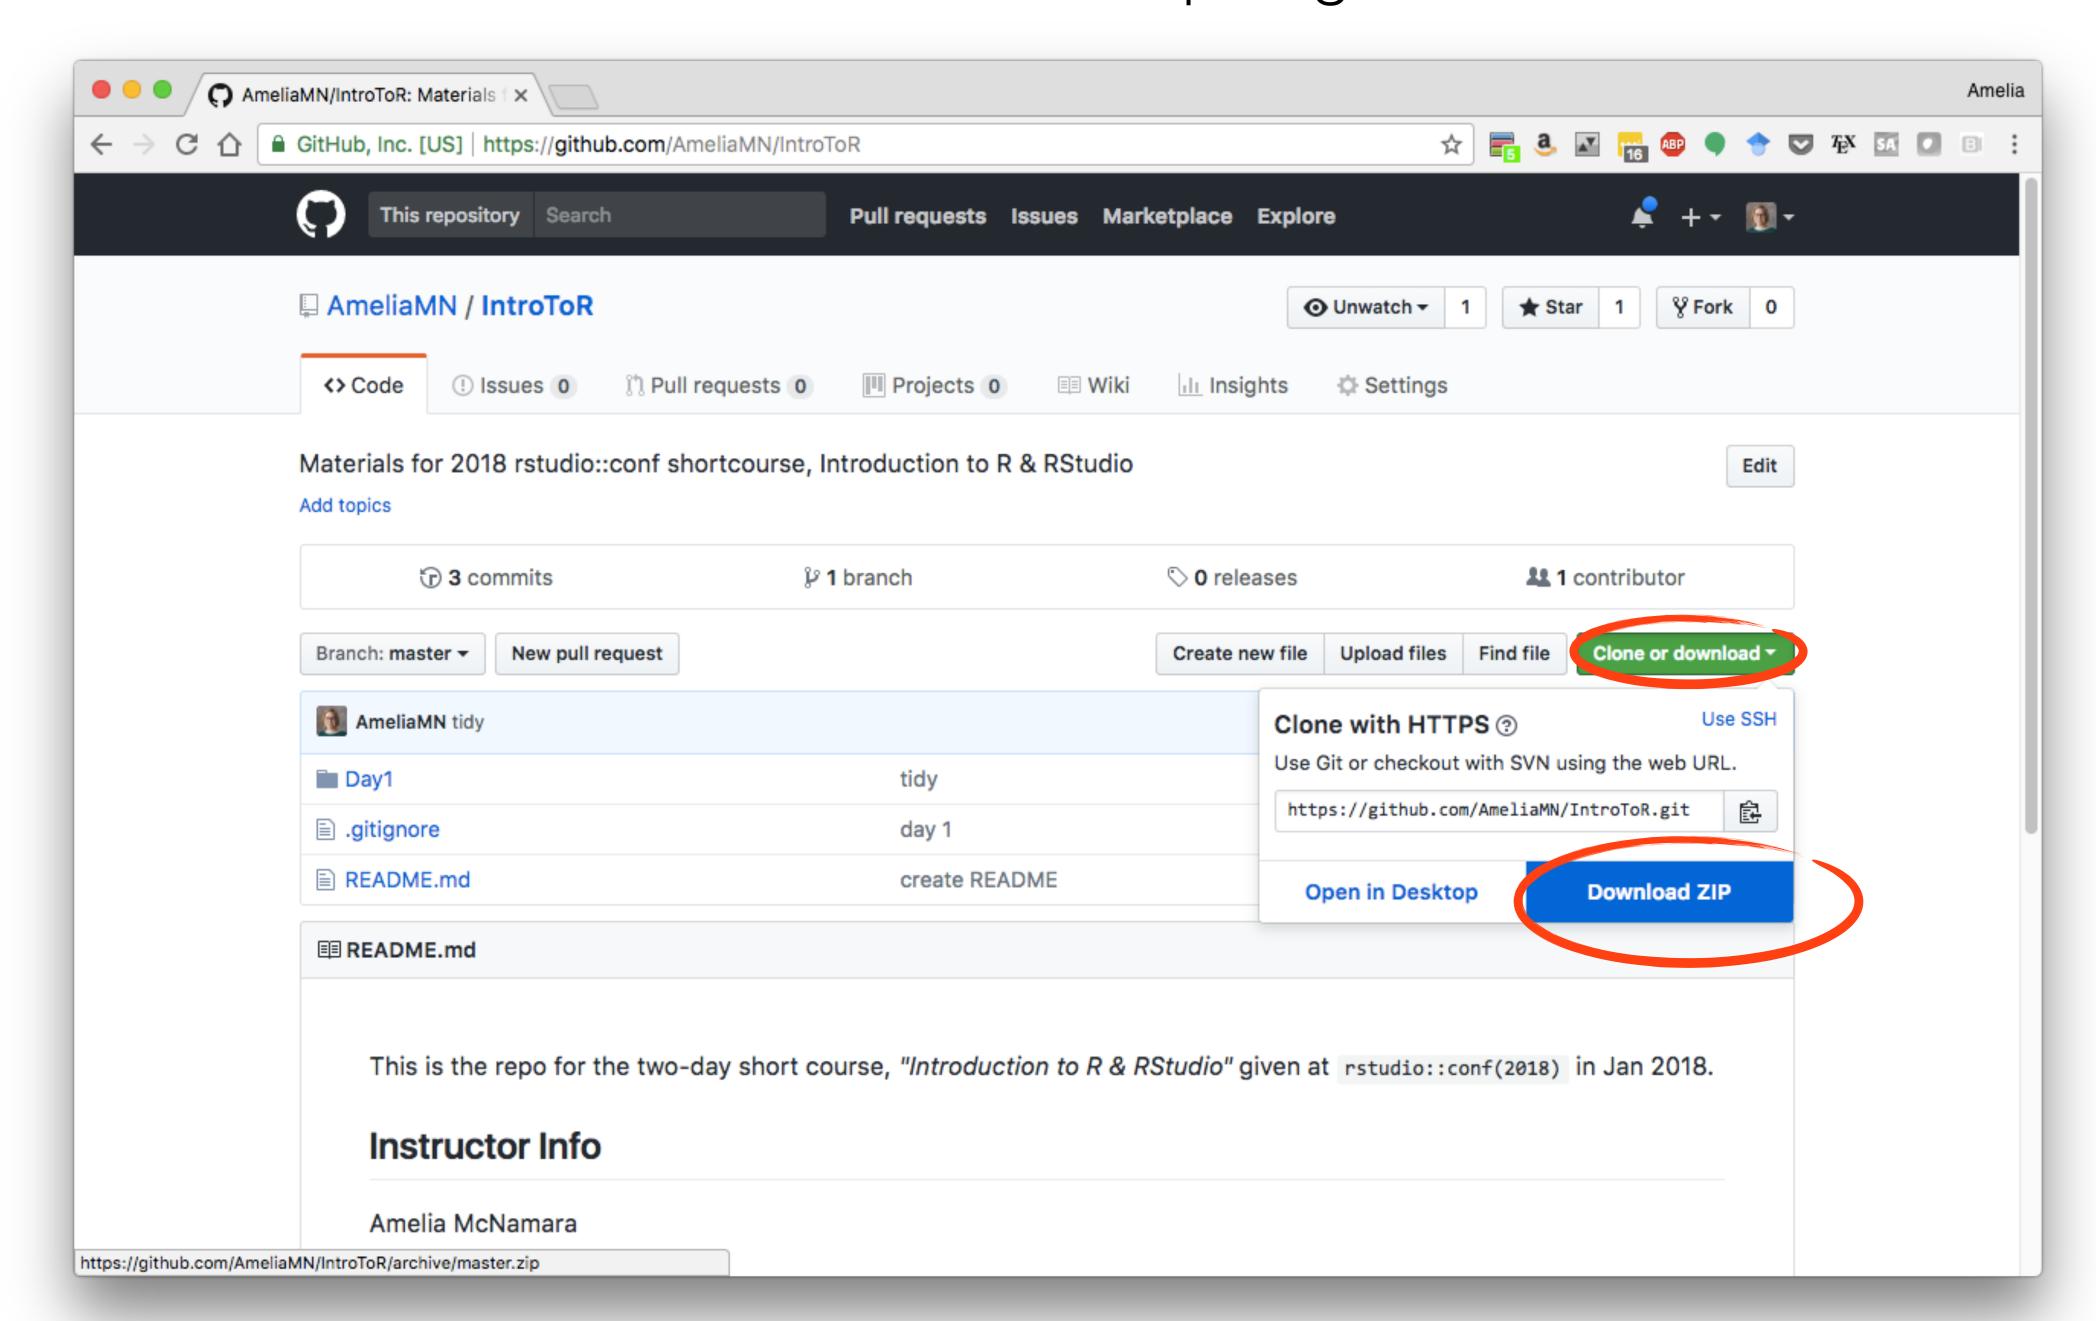

And more

```
install.packages(c("tidyverse", "fivethirtyeight",
"babynames", "nycflights13", "skimr"))
```

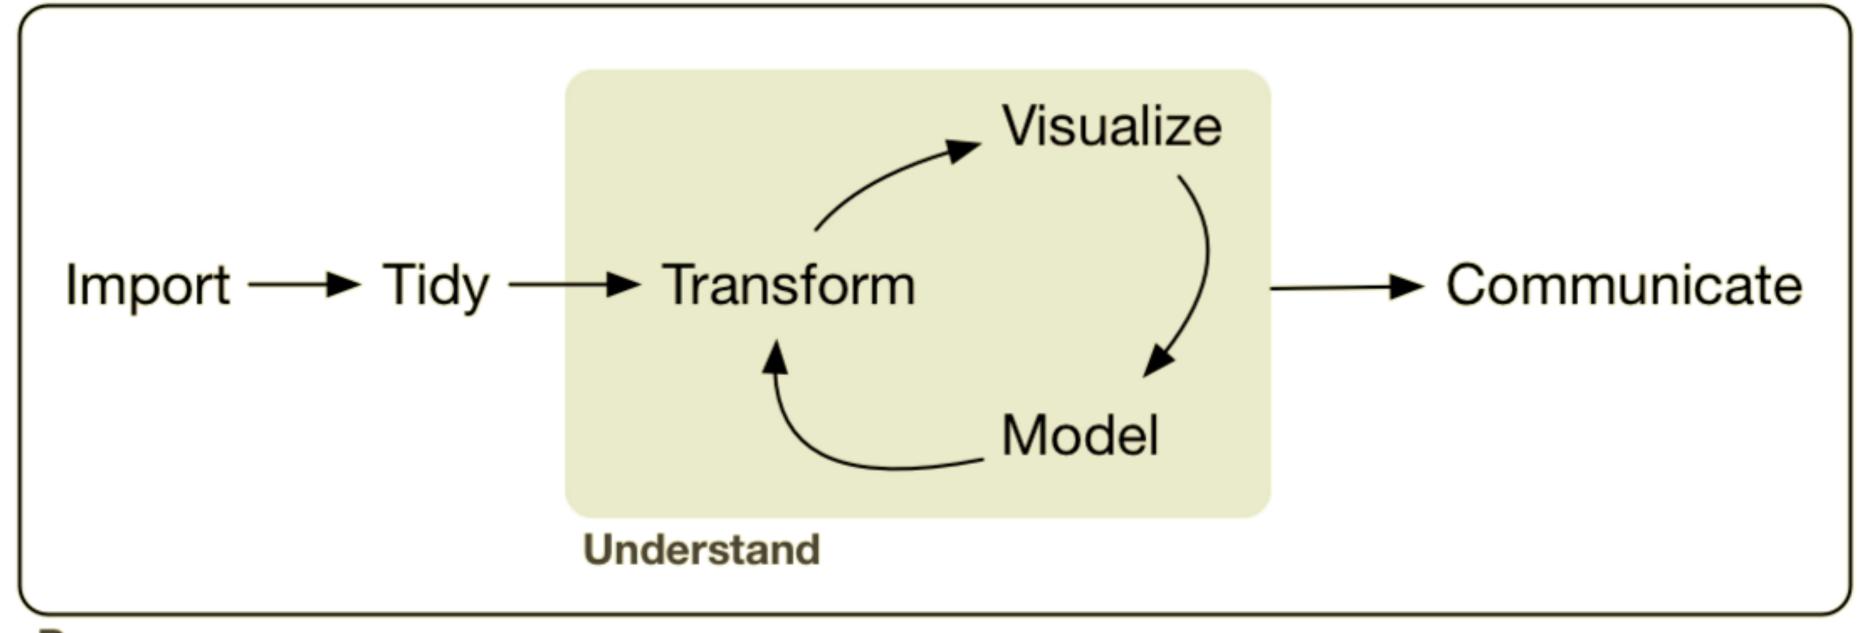

Getting our code

Or, download another clean version from https://github.com/AmeliaMN/IntroToR

More packages

Program

From R for Data Science by Hadley Wickham and Garrett Grolemund.

You are probably going to want to explore many more packages than we discussed. In particular:

- If you have categorical data, especially if you want it to appear in an ordered way, you should explore forcats
- If you need to work with character strings, and pull pieces of text out, see stringr
- For easier-to-work with date/time data, use lubridate

Getting help

- We've seen the R help functions? and help()
- Google, putting in R as a search term (Google recognizes it now!)
- Search on http://stackoverflow.com/ (add keywords like tidyverse)
- Ask a question of someone near you physically (there are R <u>meetups</u> in many major cities, as well as <u>R-ladies</u> meetups).
- Ask a question on the internet
 - https://community.rstudio.com/ is intentionally friendly to beginners!
 - Asking on http://stackoverflow.com/ is perhaps an intermediate skill
 - I don't recommend asking on <u>R-help</u>
- Ask an expert— you can email me at amcnamara@smith.edu

Thanks to my fantastic TAs

HELLO my name is

Katie

Katie Leap

HELLO my name is

Kelly

Kelly O'Briant

@b23kelly @RLadiesDC

Thank you!
